### DETAILED ACTION

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5

Claim 25 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "reducing" in claim 25 is a relative term which renders the claim  
10 indefinite. The term "reducing" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. In the previous Office Action, the term "limiting" rendered the claim indefinite. Changing the term from "limiting" to "reducing" does not make the claim any more definite. The same problem of  
15 not knowing the metes and bounds of the claim apply. For example, does "reducing the amount of route information" mean reducing the flow, the bandwidth, or maybe the types of data?

### ***Allowable Subject Matter***

20 The following is a statement of reasons for the indication of allowable subject matter: Claims 19, 20, and 23 are allowable because the prior art of record fails to teach, in combination with other claim limitations, "...directs the query packets to be sent only to neighboring devices that have not been identified as stub routers upon receiving notice of a failed connection..." (claims 19, 20); and "...a response packet to

be sent with routes identified as inaccessible upon receiving a query for route information other than the type specified in the information packet, means for sending a response packet with routes identified inaccessible..." (claim 23).

### ***Response to Arguments***

The objection to the drawings is withdrawn.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
